Advanced Phlebotomy

Level 3, 3 Credits

Introduction

This course will enable participants to build on their existing skills to learn techniques of taking blood from hands and feet, and from challenging patients with small mobile or difficult veins.

The course is only open to candidates that have already successfully completed our phlebotomy skills, understanding and applying training and hold the appropriate One Awards certificate.

It will be of greatest benefit to those who are already taking bloods and who need to develop their skills.

The course is accredited by the One Awards and is the only course of its type that has the backing of a recognized educational awarding body

The course, which has a duration of one day, will comprise a theoretical session for the first part of the day followed by a practical session using our training hands and feet.

Course Content

- Infection Control
- Complication
- Butterflies
- Haemolysis
- Haemoconcentration
- Venepuncture of hands and feet

In addition to attending the training course participants will be required to complete 3 pieces of written work.
